PROFESSIONAL SUMMARY

Computer Science graduate student focused on DevOps, Cloud, Linux Administration, and Infrastructure Support. Hands-on experience with VICIdial, VoIP systems, Linux troubleshooting, MariaDB/MySQL, Apache, SSH administration, and backend operations. Strong analytical and problem-solving skills with a passion for automation and scalable infrastructure.

TECHNICAL SKILLS

Operating Systems: Linux

Programming: Python, Bash, SQL, PHP

Databases: MariaDB, MySQL

Tools: SSH, PuTTY, FileZilla, Apache/httpd

VoIP: VICIdial, Asterisk, SIP/VoIP, Zoiper

Areas: System Administration, Monitoring, Networking, Infrastructure Troubleshooting

EXPERIENCE

IT Systems Administration Intern | Ambassadors Insurance Company | May 2026 – Present

- Support Linux administration and backend operations in production environments.
- Troubleshoot VICIdial, VoIP, DID routing, user access, and monitoring issues.
- Work with SSH, Apache, MariaDB/MySQL, and Linux tools for diagnostics and administration.
- Assist with CRM workflows, data operations, documentation, and system support.

PROJECTS

- Smart Healthcare Management System – Healthcare application with backend data management.
- Crop Recommendation System – Machine-learning-based crop recommendation solution.
- Natural Language Processing Project – Text processing and language analysis.
- Thermal Management Research – Analytical research on performance optimization.

EDUCATION

Saint Leo University

Master of Science in Computer Science

Expected Graduation: December 2026 | GPA: 3.585/4.0

LEADERSHIP EXPERIENCE

Leaders of Learning Program – Mentored junior students and supported technical learning initiatives.
